Chandkheda, Ahmedabad Affiliated

G.H. Patel College of Engineering and Technology

A Project Report On

Smart Mirror

Under subject of
DESIGN ENGINEERING – 2B
B. E. II, Semester – VI
(Computer Branch)

Submitted by:

Group:

Sr. Name of student Enrollment No. 1 Yash Makwana 180110107023

Prof. Priyang Bhatt (Faculty Guide)

Dr. Maulika S. Patel Head of the Department

Academic year (2020-2021)

CERTIFICATE

This is to certify that the case study report entitled "Smart Mirror" submitted by Group ID: 292252 with group members Name Yash Makwana (180110107023), as a part of their Subject Design Engineering – 2B (3160001) at G. H. Patel College of Engineering &Technology (GCET) affiliated to Gujarat Technological University (GTU) is a record of the bonafide work carried out by them under our guidance and supervision. The work submitted, in my opinion, has reached to a level required for being accepted for the examination. The matters embodied in this report, to the best of my knowledge, have been represented by the members of the group with their initial thinking process related to the design engineering concept they have selected.

Prof. Priyang Bhatt Prof Krushna Pandit Dr. Maulika Patel

(Faculty Guide) (Mentor) (Prof. & Head of CE Dept.)

1. Introduction

Team Id: 292252

Team Members: Yash Makwana

Guide: Prof. Priyang Bhatt

Mentor: Prof. Krushna Pandit

1) What is design thinking?

Design thinking is a human centred approach to solve the problems. It uses and organize method of defining the problem through observing and empathizing with the people who are impacted by it, generating multiple solutions and prototyping one of the solutions.

2) Its importance, Socio-economical relevance

It helps organizations learn faster

It reduces the risks associated with the implement of new ideas

It helps to solve problems easily

3) Learning tools and its importance:

Design thinking captures the mindsets and needs of the people for whom you are working for and paints a picture of the opportunities based on the needs of people.

4) Team building and log book exercises and importance:

Different person have different type of thinking, so we get good and important ideas. That helps to know the solutions of problems. Log book helps to recall us the key points and activity we covered during all the time.

5) What is Smart Mirror

Smart mirror is a human centred two-way mirror with an electronic display behind the glass. The display can show the viewer different kinds of information in the form of widgets, such as weather, time, date and news updates.

2. Empathy Mapping

Users:

- Student
- Businessman
- Normal people

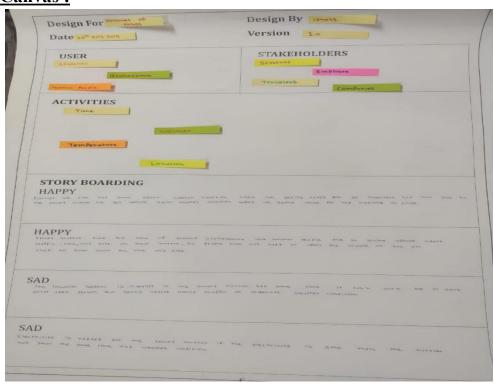

Stakeholders:

- Student
- Employees
- Traveller
- Companies

Activities:

- Time
- Weather
- Temperature
- Location

* Canvas:

3. Ideation Canvas

❖ People :

- Students
- Businessman
- Normal People

***** Activities:

- Time
- Weather
- Temperature
- Location

Situation/Context/Location:

- Time saving
- Weather information
- Finding solution
- show timetable

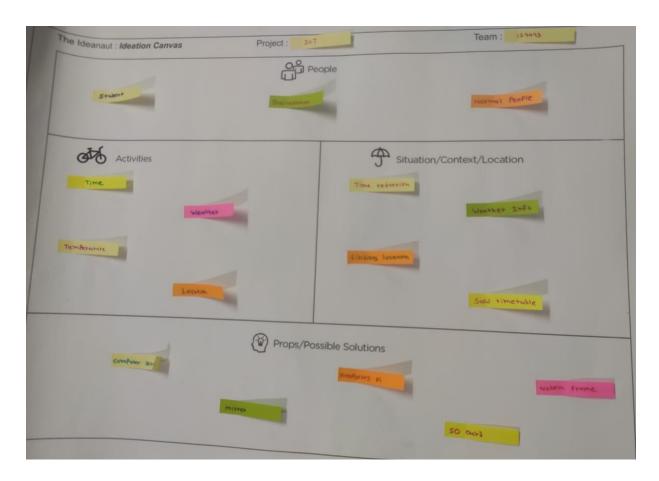

Props/Tools/Objects/Equipment:

- Computer screen
- Mirror
- Wooden frame
- Raspberry Pi
- SD card
- Boards

Canvas:

4. Product Development Canvas

❖ Purpose :

- Time saving
- Multi tasking

❖ People :

- Students
- Businessman
- Normal People

Product Experience:

- Time Saving
- User friendly
- Cost Effective

Product Functions:

• Display Data

Product Features:

- Time saving
- Getting update
- Display date and time

Components:

- Mirror/ Display
- Raspberry pi
- IR Sensors
- Camera
- IR sensors
- Microphone
- Speaker

***** Customer Revalidation :

- Getting updated
- Satisfaction of user
- Saving time

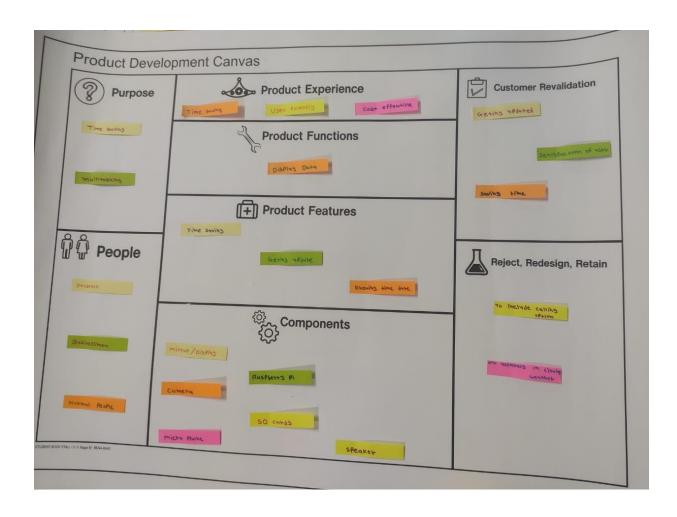

* Reject, Redesign, Retain:

- To include calling option
- Not accurate in cloudy weather

Canvas:

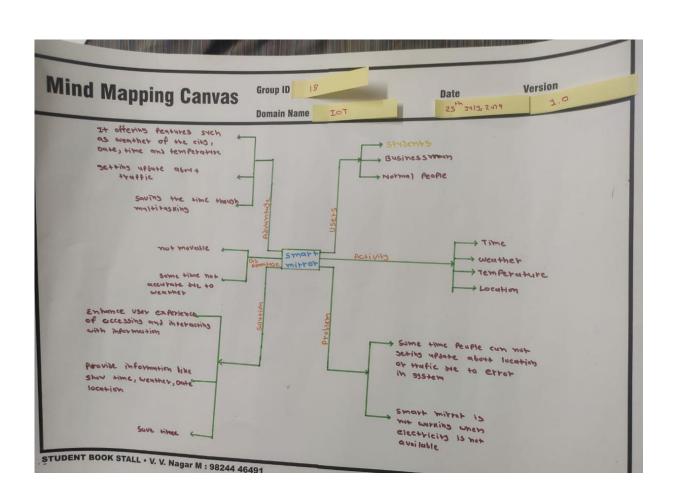

5. Mind Mapping Canvas

❖ Canvas :

6. **AEIOU Canvas**

Environment:

- Home automation
- Industry
- Hospitals
- Crowdies

***** Interactions:

- Voice command
- Smartphone
- Hand gestures

❖ Objects:

- Raspberry pi
- Camera
- Display
- Microphone
- Speaker
- Sensor

Users:

- Student
- Businessman
- Normal People

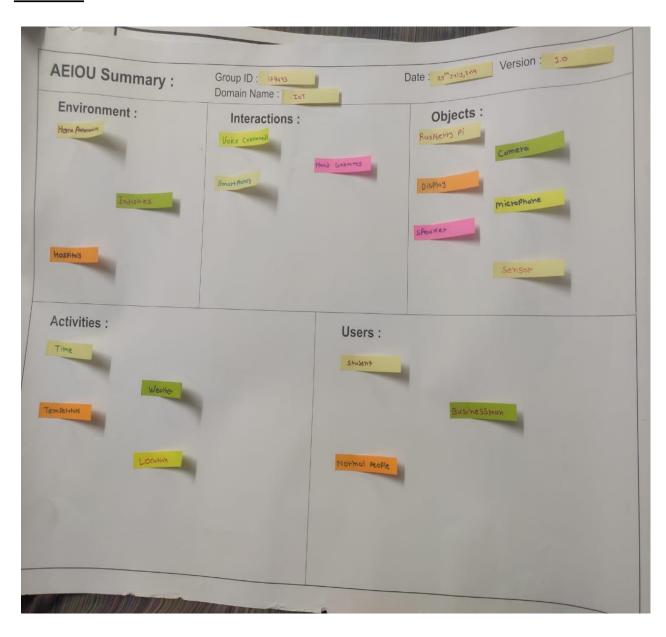

Activities:

- Time
- Weather
- Temperature
- Location

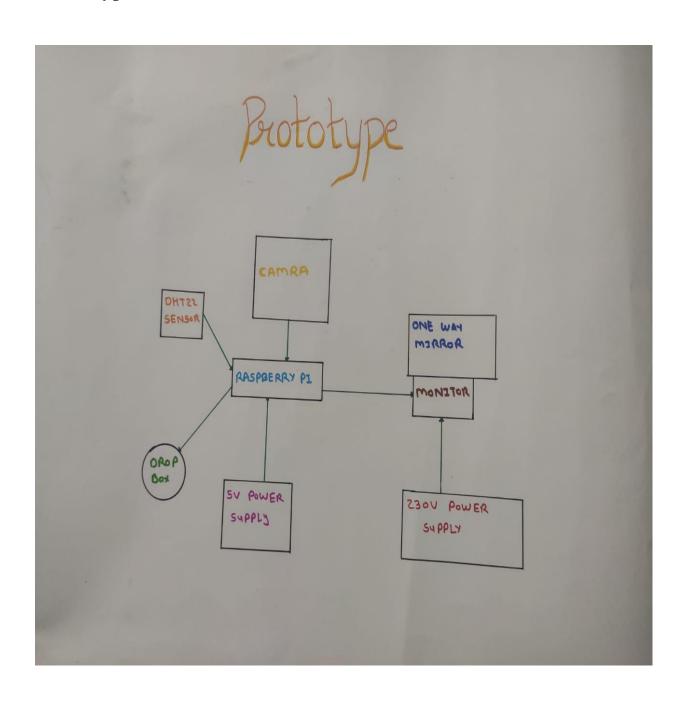

Canvas:

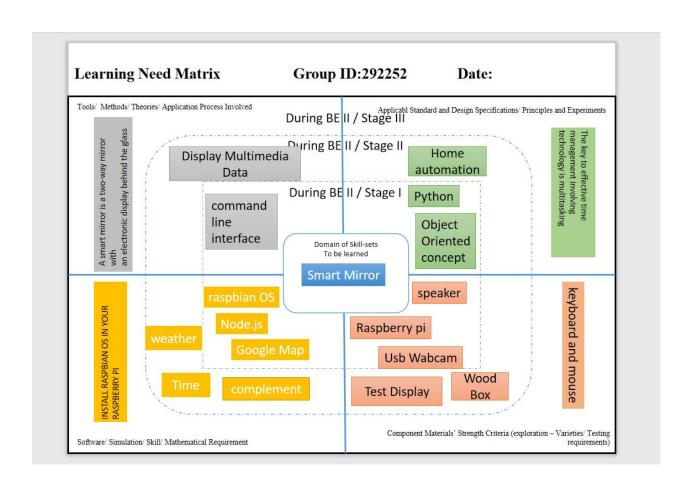

7. Prototype

8. Learning Need Matrix

9. Conclusions

Smart mirror have great potential to enhance user experience of accessing and interacting with information. Smart mirror will be useful at the home, business and hospitals. This Mirror provides information like show time, weather, date, location etc. Smart mirror help to save the time. It change simple mirror into smart mirror which can show the importing things on it. Person will do multitask at same time by using smart mirror.
